

Protecting Earth's Natural Resources

On November 16, we will welcome Dr. Nancy Tuchman from Loyola University Chicago. Dr. Tuchman will raise our awareness of the unsustainable consumption of Earth's natural resources. She will present the amazing accomplishments of Loyola's youth-based Socio-Ecological Systems.

What will we learn?

- Practical steps we can take as individuals.
- The stumbling blocks we may face.
- How to move forward as we care for God's Earth, our home.

Please join us! There will also be an opportunity for questions!

Sunday, November 16

11:15 am - 12:15 pm

**Southminster Presbyterian Church
916 Central Road, Arlington Heights**
